Free AdShow Digital Signage Software

Display Time, Weather and RSS News

Through the web interface of Slideshow, in addition to displaying files, you can add different panels to the screen: current **date and time**, **weather information** for next few days and **RSS news or ticker can be created according to your requirement.**

Files can automatically copied from USB flash drive.

Copy the content on USB Drive and Plugin to drive USB port and automatically the content is copied and played back from local storage. if you connect your device to the local network via WiFi or Ethernet cable, you can also add new files through FTP

AdShow can display image, videos and others

JPG, PNG, BMP, GIF, WEBP, SVG, Videos (AVI, MPEG, MP4, MOV, WMV, MKV) and audio formats (MP3, AAC, FLAC, WAV, OGG, MID). additionally, it supports displaying text (TXT), Excel (XLS, XLSX), PDF, HTML files and YouTube videos without any need for additional setup.

Easy to use in various devices

Just install AdShow on your android **smartphone, tablet, TV, Stick or Android box**, run it and insert a USB flash drive with files. Slideshow will automatically start displaying them in an infinite loop. **Auto Boot and Auto Start Supported.**

Content management remotely using Google Drive.

The Content can be managed by updating your google drive from anywhere the google account of yours will be configured on device which will synchronize the content with your google drive.

Setup Multi Zones Layouts and playlists

Experiment with various **screen layouts** even split screen with overlapping zones and transparency. Setup different **playlists** for different parts of the day or different days of the week. All setting are accessible through the local web interface.

Supports both Portrait and Landscape layouts within the software.

Our Happy Clients
